(C) 8085134821

❖ Introduction :-

Easy School, Seamlessly integrates information and presents it in the desired format, helping increase the productivity of the school staff. It also helps the school management in maintaining proper control over the functioning of the school, take better informed decisions and enhance the image of the institution.

1. School management software with education resource planning tools which helps educational institutions to save cost & time in administration and provide integrated system for data driven decision making.
2. Easy School offers long term saving potential to the schools in terms of money, resources, men & time.
3. Single Database Server System – Easy to maintain and administer.

❖ Key Features :-

- Comprehensive student records management – From the time of registration till the time of student leaving the school.
- Highest security at User Level, Module Level & Form Level.
- Academic Results for Students Throughout Sessions.
- Strong Reporting system with all the details on finger tips.
- Exporting of various reports to MS Word, MS Excel, And Acrobat etc.
- Complete Financial Accounting/Inventory Management and Transportation.
- Very easy built-in Backup & Restore utility to keep you secure from loss of data.
- No need of special training program, anyone can learn within few interactions, and many more…
